

Pattern-91:

```
1) num=int(input("Enter a number:"))
2) for i in range(1,num+1):
3)     print(" *(i-1),end=")
4)     for j in range(i,i+1):
5)         print(num-i+1,end=" ")
6)     if i<=4:
7)         print(" *(2*num-2*i-2),end=")
8)         for k in range(i,i+1):
9)             print(num-i+1,end=" ")
10) print()
```

```
5  5
4  4
3  3
2  2
1
```

Pattern-92:

```
1) num=int(input("Enter a number:"))
2) for i in range(1,num+1):
3)     print(" *(i-1),end=")
4)     for j in range(i,i+1):
5)         print(chr(64+num-i+1),end=" ")
6)     if i<=4:
7)         print(" *(2*num-2*i-2),end=")
8)         for k in range(i,i+1):
9)             print(chr(64+num-i+1),end=" ")
10) print()
```

```
E  E
D  D
C  C
B  B
A
```

Pattern-93:

```
1) num=int(input("Enter a number:"))
2) for i in range(1,num+1):
3)     print(" *(i-1),end=")
4)     for j in range(i,i+1):
5)         print(chr(64+i),end=" ")
6)     if i<=4:
```
